Subject Commodity murabaha facility — request for an opinion

We are asked by a corporate client to provide a commodity murabaha facility of AED 4,250,000 for a term of thirty-six months. The draft agreement prepared by our counsel is attached at page 2 and has not yet been executed.

The board's opinion is sought before we respond to the client. We would be grateful for a determination on whether the structure as drafted may be offered, and for any amendments the board requires. We have not taken a view internally and no commitment has been given to the client.

Two matters we expect the board will wish to look at. The commodity is purchased through a broker and our operations desk holds it for a short period before the onward sale. And clause 3.4 provides for an additional amount on late payment, which our counsel has drafted as retained by the bank; we understand the board may take a different view of where it should go.

We are content to wait for the board's ordinary process and have told the client to expect a response in the usual period.
